

# SME061 32w 2928Lm

Reference: FL-OUT-SGN856

**Description:**

**Certifications:**

**Fiche technique:**

|                       |                               |
|-----------------------|-------------------------------|
| Mounting              | Sur tête de mât diamètre 60mm |
| Voltage               | 230V                          |
| Power                 | 32                            |
| Insulation class      | I - II en OPTION              |
| Power Factor          | Supérieur à 0.95              |
| Luminous flux         | 2928Lm                        |
| Type of light source  | LED                           |
| CRI                   | Supérieur à 80                |
| Driver included       | Yes                           |
| Lifetime              | 50 000h L70B10                |
| Color temperature     | 3000K/4000K                   |
| Dimming               | OPTION                        |
| IP                    | 65                            |
| IK                    | 08                            |
| Operating temperature | -20 à +40°C                   |
| Material              | Polycarbonate                 |
| Weight                | 4,90                          |
| Size                  | Diamètre 500x555mm            |
| Energy label          | <div>A++</div>                |
| RG                    | RG0                           |
| Warranty              | 5 Ans                         |
